

Spark Imaginative Learning Through Engaging, Hands-On Science Exploration!

Fossil Fun©

Step back in time to the age of dinosaurs. Become a paleontologist as we explore real fossils and make our very own fossil to keep!

Baby Animal Games©

Explore the world of animals and discover what makes each animal special. Learn about animal protection, homes and more.

Gold Rush©

Kids become Geologists while learning how rocks are made, prospecting for gemstones and observing their special qualities. Take home a rock collection.

Scientifically Science©

Use real scientific tools! Observe and predict what happens when you mix chemicals together. Take home a real magnifying glass!

Soak It To Me©

Become a Soaking Scientist as you discover what materials can absorb liquid the best. Make water climb and create a chromatography rainbow.

Give Us A Sign©

Take a journey through the footsteps of animals. Have fun as we discover the unique tracks of many different animals & search for animal signs left behind.

Electrifying Scientists©

Harvest the power of static electricity, generate mini lighting and even make a bulb glow without plugging it in.

Out of Sight Light©

Discover what light is. Have fun as we explore shadows, rainbows and prisms. Even take home some fireworks glasses.

Planet Protectors©

Discover how to take care of our planet, explore ways to keep our planet clean by using the 3 R's - recycle, reuse, reduce.

Spooky Spiders©

Learn the difference between a spider and an insect. Take a close look at spiders and learn about the cool things they do. Take home your own spider model.

Cool Coastal Science©

Let's make waves as we explore and experiment with sand. Investigate beach creatures and take home a very special shell.

Olfactory Fun Factory©

Discover our amazing sense of smell. Have FUN as we learn about the science of our senses. The fun continues as we have a Smelling Bee.

Science Made Fun!

"Children are engaged, learning and having fun the entire class. I especially love the hands-on experiences the children are able to participate in. I see the wheels turning as they play! You guys are turning my preschoolers into little scientists!"

Mrs. Amy Shaver
Four Square Preschool
Lakeville, MN

"Scientist Asteroid Adam is very patient with the kids, and great at refocusing/grabbing their attention! We love that there is a take home experiment and parent communication."

Ms. Hanna
Little Folks Daycare
Crystal, MN

"Always a wonderful engaging and educational experience for our four/ five year olds. Thanks you for all you do!"

Ms. Sharon Gebell
Sunshine Valley
Golden Valley, MN

Now offering weekly, bi-weekly and monthly programming!

HANDS-ON FUN!

Preschool Workshops

High Touch High Tech can help your preschool reach it's S.T.E.A.M. goals. We nurture budding young minds with our amazing programs specifically designed for preschool age children. Our programs are totally hands-on and totally participatory for each child.

Our energetic scientists will engage each group of children for 30-minutes of non-stop, hands-on FUN learning. Students will leave excited about science with a Make and Take project, and a parent communication letter.

The cost of this science experience is \$5.00 per child with a \$150.00 program minimum. All materials are included in this supply intensive, educational and fun experience. Please note that a \$20.00 travel fee will apply.

Book us for a class or year round curriculum by calling or visiting us online at SciencMadeFunMSP.net.
