

WHAT IS XDRIDE?

What is XD Ride, you ask? It's the ride that everyone leaves talking about. The ride that engages your senses, immerses you in a world of action, and delivers an amazing 7 Dimensional experience that is unlike any other.

Immerse yourself in a thrilling 7D interactive movie featuring our state-of-the-art motion theater, stunning 3D graphics, spectacular sound technology & amazing special effects, including wind and lighting effects. The best part of the experience is that you will be equipped with our laser blasters that contain our high precision, pixel-perfect targeting system and highly responsive competitive scoring system.

All of these work together to create the sensation that you are a character inside the movie trying to fend off the enemy attack by blasting them with your laser blaster. Each time you hit and/or kill the enemy, you will gain points. Don't forget that you are competing against your family and friends in the theater for bragging rights!
